Chosen by Fate, Rejected by the Alpha
Apr 13 2022
Eighteen-year-old Trinity is unlike any other werewolf in her pack. For one, there were unusual circumstances surrounding her birth, for another, she is the only pack member to never shift into a wolf form. So now she doesn't quite belong anywhere. Not quite human and not quite wolf. She thought she would be able to live her life how she wanted when she had turned eighteen. Go to college, make some friends, have some fun. But what is she to do when the dangerously sexy

Alpha literally falls right into her lap? "I am not human, and I am not a wolf. I don't belong anywhere..." "...we both know that no one is going to mate with me, and even if they did, they would just reject me anyway." What is the sexy, brooding Alpha going to do? The elders are making him hold these ridiculous parties to search for a mate. He doesn't want a mate, but he knows he needs a mate to finish the Alpha Circle. Without a mate, a Luna for the pack, his people would suffer. And what is he going to do when he stumbles across the girl that fate has chosen for him and he finds out she has no wolf? "This

cannot be!" I roared. "There is no way that I can mate with a girl that does not even have a wolf. She will be too weak. She will be inferior. She will not be strong enough to be a Luna." "I simply could not accept her as my mate. Not fully. It wasn't safe for her. She would get herself killed. And she would bring my pack down with her." When these two meet, sparks will surely fly. But will it be from passion, or their constant fighting? Neither of them wanted a mate. Neither of them wants the mate that fate chose for them. And neither of them can make that mate bond go away. What are they

going to do now that they're literally stuck with each other?
The Crimson Mage and the Dark Necromancer Apr 01 2021 A teacher with powerful magic whose flame of love for one never diminishes. A beautiful half-fae, unworldly student with a hidden dark power and a crush on his teacher. An adventure is on the horizon. Famous, powerful, and lethal—ex-military supreme crimson mage Alastair Reinhardt is enjoying his peaceful, reclusive life with his beautiful half-fae student Sora, teaching the boy the art of magic. When Sora turns eighteen, Alastair introduces Sora to

the outside world by taking the boy on an excursion. Little does Alastair know, however, that a band of demonic spirits has been going around the realm of Stormfire and kidnapping and murdering boys ripe for the plucking—boys like Sora, who is a perfect candidate for the hungry spirits. Like hell Alastair would allow those contaminated creatures a chance to lay their filthy hands on the boy. Sora is his beloved—a reincarnate of his inamorato Minato Ando—and Alastair would do whatever it takes to protect the boy. Not that Sora needs protecting though,

because the boy can really kick some ass with his powerful magic and martial arts skills, not to mention he is the legendary dark necromancer with a legion of his own army of the undead, not that he knows it. The Crimson Mage and The Dark Necromancer is an mm fantasy (boys love, yaoi). The fantasy aspect is a mashup of the East and West. Expect adventure, magic, mayhem, and romance between a beautiful, unworldly uke (Sora) and a powerful, hunky redheaded seme (Alastair). Note: Seme is the man who does the chasing (the top) and uke is the male being chased (the bottom) in the romantic

relationship. The Crimson Mage and the Dark Necromancer series is published in novel-length (80-90K word) serialized books format, and this first one ends in a slight cliff-hanger as the mystery is not fully solved. The romance, however, ends in a happy for now note.

On the Origin of Species

Illustrated Feb 17 2020 On the Origin of Species (or, more completely, On the Origin of Species by Means of Natural Selection, or the Preservation of Favoured Races in the Struggle for Life), published on 24 November 1859, is a work of scientific literature by Charles Darwin which is considered

to be the foundation of evolutionary biology. Darwin's book introduced the scientific theory that populations evolve over the course of generations through a process of natural selection. It presented a body of evidence that the diversity of life arose by common descent through a branching pattern of evolution. Darwin included evidence that he had gathered on the Beagle expedition in the 1830s and his subsequent findings from research, correspondence, and experimentation.

taking down an old adversary, Agent Cooper Dayton of the Bureau of Special Investigations has earned a break. Not that planning a wedding to his sexy shifter partner, Oliver Park, is necessarily stress free, but it's better than worrying about the ominous warning, delivered months ago, that Cooper's life is in danger. When he's dragged to an event by his family, Cooper braces for an awkward evening, but instead finds himself in the middle of an ugly feud between Park's ex and a rebel pack leader. What was supposed to be a quick outing turns into a full-blown murder

investigation after the pack leader ends up dead, Park's ex goes missing, and Cooper and Park are sent a series of disturbing wedding gifts that are somehow connected to it all. One is a story of the fantastical love between an artist and his subject. The other is a story of childhood friends turned lovers and their journey through life.
