Asia, the location of the world's fastest-growing economies, is also home to some of the fastest rates of urbanization humanity has ever seen, a process whose speed renders long-term outcomes highly unpredictable. This volume contrasts with much published work on the rural/urban divide, which has tended to focus on single case studies. It provides empirical perspectives from four Asian countries: India, Indonesia, Malaysia, and Thailand, and includes a wealth of insights that both critique and expand popular notions of the rural-urban divide. The volume is relevant not just to Asian contexts but to social scientific research on population dynamics more generally. Rather than deploying a single study to chart national trends, three chapters on each country make possible much more complex perspectives. As a result, this volume does more than extend our understanding of the interplay between cities and hinterlands within Asia. It enhances our notions of rural/urban cleavages, connections and conflicts more generally, with data and analysis ready for application to other contexts. Of interest to diverse scholars across the social sciences and Asian studies, this work includes accounts ranging from rural youth real estate entrepreneurs in Hyderabad, India, to social development in Aceh province in Indonesia, devastated by the 2004 tsunami, to the relationship between urban space and commonly held notions of the supernatural in Thailand's northern city of Chiang Mai. Examining the southern memory of Reconstruction, in all its forms, is an essential element in understanding the society and politics of the twentieth-century South. As a member of a distinguished South Carolina family, Matthew Calbraith Butler led a most interesting life. His cavalry service during the Civil War saw him rise from regimental captain to major general in command of a division. He began the war with Jeb Stuart and participated in all of his early campaigns. Butler was wounded in the battle at Brandy Station and lost his foot as a result, but he returned to duty and the battles outside of Richmond in 1864, then hurried South to resist Sherman's advance into South Carolina. Unlike many other Confederate generals, Butler remained influential after the War. He served in the U.S. Senate for eighteen years, oversaw the end of Reconstruction in South Carolina, and was a major general during the Spanish-American War. The three volume set LNCS 7583, 7584 and 7585 comprises the Workshops and Demonstrations which took place in connection with the European Conference on Computer Vision, ECCV 2012, held in Firenze, Italy, in October 2012. The total of 179 workshop papers and 23 demonstration papers was carefully reviewed and selected for inclusion in the proceedings. They were held at workshops with the following themes: non-rigid shape analysis and deformable image alignment; visual analysis and geo-localization of large-scale imagery; Web-scale vision and social media; video event categorization, tagging and retrieval; re-identification; biological and computer vision interfaces; where computer vision meets art; consumer depth cameras for computer vision; unsolved problems in optical flow and stereo estimation; what's in a face?; color and photometry in computer vision; computer vision in vehicle technology: from earth to mars; parts and attributes; analysis and retrieval of tracked events and motion in imagery streams; action recognition and pose estimation in still images; higher-order models and global constraints in computer vision; information fusion in computer vision for concept recognition; 2.5D sensing technologies in motion: the quest for 3D; benchmarking facial image analysis technologies. In 1938 the New York-based Institute of Current World Affairs awarded 23-year-old Phillips Talbot a fellowship with a mandate: visit South Asia and learn about the intricacies of life in India. Till 1950, Talbot graphically recounted the buildup to Indian and Pakistani independence, and the early experiences of the new states in the form of several letters to the institute. Talbot's reports from the field, presented here in the original, offer a kaleidoscope of first-hand observations: on student life at the Aligarh Muslim University, local life in a small Muslim community in Kashmir, a Vedic ashram in Lahore, Tagore's Shantiniketan, Gandhi's Sevagram, crucial sessions of the Indian National Congress and the All India Muslim League, the Kodaikanal Ashram Fellowship, Hindu and Muslim urban communities in Lahore and Bombay, Afghanistan, a walk with Gandhi in Noakhali, the parties' negotiations with Mountbatten that led to independence and more. Written with flair and insight, *An American Witness to India's Partition*, provides a perceptive view of South Asian society in its decisive decade. Intense political polarization, confrontation and violence have rocked Thailand recently, much of it a divisive legacy of the 2006 coup. Conflicts centre on the legitimacy of institutions and the uses and abuses of power alongside the parallel crisis of state legitimacy posed by the ongoing violence in the country's Deep South. This collection of essays explores themes and issues arising from the continuing confrontations that have dominated Thailand's domestic affairs and affected its international relations in the years 2008 to early 2010. Based on extensive research and documentation, this volume offers an important review and analysis of key events and trends in Thailand's volatile public affairs during this period. The book brings together essays by Thai specialists as well as Western scholars on pivotal topics connected to Thailand's current legitimacy crisis. It begins with a lively narrative of major events and in subsequent chapters covers the politicization of the Khao Phra Wihan (Preah Vihear) temple issue; the People's Alliance for Democracy and its "New Politics"; the politicization of the Thai media; the revived role of the Thai military in influencing politics and governance; and the challenge of the persistent unrest in Thailand's south. The book concludes with an insightful analysis of the key challenges facing the country politically, institutionally and economically. The events of March-May 2010, which saw a dramatic face off between the red-shirt movement and the government, are discussed in an afterword. This collection is published as volume 5 in the yearbook series of King Prajadhipok's Institute, Thailand. Highlights - Offers a penetrating and insightful analysis of Thailand's volatile political affairs during 2008-2010 - Based on extensive research and documentation by both Thai and Western scholars - Explores ongoing conflicts in Thai society, including those involving the "red shirts" and

“yellow shirts” - Illustrates how the ongoing violence in the Muslim south continues to pose a challenge to state legitimacy - Places Thailand’s political affairs in comparative perspective Canadian rock climbing was born on the big flat face of Yamnuska. For more than 50 years aspiring youth and grizzled veterans have been putting up new routes on the south-facing slab that faces the sun and attracts climbers every month of the year. In the first-ever climbing guide to the Yam, you will find 115 routes described in detail and accompanied by maps and photographs. Yamnuska holds a special place in the hearts of people who seek adventure. Climbs range in grade from 5.5 through 5.12, and styles encompass the very bold to the more conservative. The cliff is steeped in history. There is a spiritual nature that is hard to explain, but many climbers have shared this feeling after a day scaling her lofty heights. Partnerships develop between friends and the mountain that can last a lifetime. The valuable interviews conducted by Nebraska judge Eli S. Ricker with Indian eyewitnesses to the Wounded Knee massacre, the Little Big Horn battle, the Grattan incident, and other events and personages of the Old West are finally made widely available in this long-awaited volume. ø In the first decade of the twentieth century, as the Old West became increasingly distant and romanticized in popular consciousness, Eli S. Ricker (1843?1926) began interviewing those who had experienced it firsthand, hoping to write a multi-volume series about its last days. Among the many individuals he interviewed were American Indians, mostly Sioux, who spoke extensively about a range of subjects, some with the help of an interpreter. For years Ricker traveled across the northern Plains, determinedly gathering information on and off reservations, in winter and in summer. Judge Ricker never wrote his book, but his interviews are priceless sources of information about the Old West that offer more balanced perspectives on events than were accepted at the time. ø Richard E. Jensen brings together all of Ricker’s interviews with American Indians, annotating the conversations and offering an extensive introduction that sets forth important information about Ricker, his research, and the editorial methodology guiding the present volume. A farmer named Hiram finds that unfortunately his favorite shirt won't last forever. A History of Kershaw County is a much anticipated comprehensive narrative describing a South Carolina community rooted in strong local traditions. From prehistoric to present times, the history spans Native American dwellers (including Cofitachiqui mound builders), through the county's major roles in the American Revolution and Civil War, to the commercial and industrial innovations of the twentieth and twenty-first centuries. Joan and Glen Inabinet share insightful tales of the region's inhabitants through defining historical moments as well as transformative local changes in agriculture and industry, transportation and tourism, education and community development. Kershaw County is home to some of South Carolina's most notable prehistoric sites as well as the state's oldest inland city, Camden, thus giving the region an impressive and richly textured human history. Still the most familiar icon of the county is an early weathervane silhouette honoring the Catawba Indian chief King Hagler for protecting pioneer settlers. An important colonial milling and trading center, Camden was seized by the British under Lord Cornwallis during the American Revolution and fortified as their backcountry headquarters. Eight battles and skirmishes were fought within the modern boundaries of Kershaw County, including the Battle of Camden on August 16, 1780, and the Battle of Hobkirk's Hill on April 25, 1781. Named for Revolutionary War patriot Joseph Kershaw, the county was created in 1791 from portions of Claremont, Fairfield, Lancaster, and Richland counties. Kershaw County developed its local economy through plantation agriculture, an enterprise dependent on African slave labor. Distinctive homes were built on rural plantations and in Camden, and a village of well-to-do planters grew up at Liberty Hill. Six Confederate generals claimed the county as their birthplace, and the area also was home to Mary Boykin Chesnut, acclaimed diarist of the Civil War. In their descriptions of Kershaw County in modern times, the Inabinets chronicle how the railroad and later U.S. Highway 1 brought opportunities for the expansion of tourism and led to Camden's development as a popular winter resort for wealthy northerners. Small towns and villages emerged from railroad stops, including Bethune, Blaney (later Elgin), Boykin, Cassatt, Kershaw, Lugoff, and Westville. The influx of new money coupled with local equestrian traditions led to an enthusiasm for polo and the creation of the Carolina Cup steeplechase at the Springdale Course. Aside from early developments in textile manufacturing, industrialization proceeded slowly in Kershaw County. The completion of the Wateree Dam in 1919 gave the region a valuable source of electricity as well as much-needed flood control and a popular new recreational area in Lake Wateree. Despite these incentives for new industry, agricultural ways of life continued to dominate until World War II influenced advances in aviation, communication, and industrialization. In describing these changes, the Inabinets map the circumstances surrounding the building of the DuPont plant which opened in 1950 and the expansion of several other industries in the area. Through perceptive text and more than eighty images, this first book-length history of Kershaw County illustrates how the region is steeped in a rich history of more than two centuries of struggles and accomplishments in which preserving lessons of the past holds equal sway with welcoming opportunities for the future. Despite depictions to the contrary, the mafia is not a cadre of noble and righteous warriors, a class of citizens working in the shadows but upholding traditional values. Instead, the authors argue, it is a brutal, violent, and ignoble organization that ultimately violates the boundaries of acceptable behavior both within the family and without. Drawing on its unparalleled network of researchers and commentators, ISEAS is to be congratulated for producing this major contribution to our understanding of this diverse and fast-changing region, to a consistently high standard and in a timely manner."e; - Hal Hill, H.W. Arndt Professor of Southeast Asian Economies, Australian National University On the morning of June 25, 1876, soldiers of the elite U.S. Seventh Cavalry led by Lieutenant Colonel George Armstrong Custer attacked a large Indian encampment on the banks of the Little Bighorn River. By day's end, Custer and more than two hundred of his men lay dead. It was a shocking defeat--or magnificent victory, depending on your point of view--and more than a century later it is still the object of controversy, debate, and fascination. What really happened on that fateful day? Now, thanks to the work of Herman J. Viola, Curator Emeritus of the Smithsonian Institution, we are much closer to answering that question. Dr. Viola, a leader in the preservation of Native American culture and history, has collected here dozens of dramatic, never-before-published accounts by Indians who participated in the battle--accounts that have been handed down to the present day, often secretly and accompanied by oaths of silence, from one generation to the next. These remarkable eyewitness recollections provide a direct link to that day's events; together they constitute an unprecedented oral history of the battle from the Native American point of view and the most comprehensive eyewitness description of Little Bighorn we have ever had. Here are the dramatic stories of the Cheyenne and Lakota warriors who rode into battle against Custer, the yellow-haired Son of the Morning Star, an adversary whose valor they admired--but who became a mortal enemy after breaking his peace-pipe oath, a scene described vividly in these pages. Here in their own words are the stories of the Crow scouts, allies of Custer, who advised against attacking Sitting Bull's village on the Little Bighorn. Here are tales of valor told by the Arikara scouts who fought side by side with Custer's men against the Lakota and Cheyenne; although the Great Father in Washington rewarded their heroism with silence, it is celebrated to this day in tribal stories and songs that come to us from beyond the grave with hair-raising immediacy and power. Lavishly illustrated with more than two hundred maps, photographs, reproductions, and drawings, this remarkable book also includes: An account of the battle, including startling descriptions of Custer's conduct, collected from the Crow scouts by the famed photographer Edward S. Curtis in 1908. Curtis never published this report--President Theodore Roosevelt advised him not to--and it remained a secret until his ninety-year-old son recently gave the material to the Smithsonian. New archaeological evidence from the battlefield that casts fresh light on the Seventh Cavalry's movements, along with discoveries from the site of Sitting Bull's village--including the complete skeleton of a cavalry horse with its rider's well-preserved saddlebags and personal items. A series of illustrations made soon after the battle by Red Horse, a remarkable tableau that is

reproduced here in its entirety for the first time. Three letters written by Lieutenant William Van Wyck Reily just days before he died at Little Bighorn that provide key and potentially controversial insights into the conduct of the cavalry under Custer's command. In short, this landmark book takes us much closer to knowing what really happened on that June day in 1876 when Custer died and a legend was born. In its revised and updated fourth edition, this exhaustive encyclopedia provides a record of casualties of war from the last five centuries through 2015, with new statistical and analytical information. Figures include casualties from global terrorism, the wars in Iraq and Afghanistan, and the fight against the Islamic State. New entries cover an additional 20 armed conflicts between 1492 and 2007 not included in previous editions. Arranged roughly by century and subdivided by world region, chronological entries include the name and dates of the conflict, precursor events, strategies and details, the outcome and its aftermath. Annual report of the Bureau of ethnology to the Secretary of the Smithsonian Institution What did the 2006 military coup show us? It demonstrated that the crux of the Thai crisis is far more serious and much wider in scope than had previously been thought. The monarchy is surely not a victim in the protracted conflict, but the root cause and continuing factor that has eroded Thai politics. The coup set in motion more prejudicial uses of the lèse-majesté law, and in the process, has led to more political prisoners. It has also shredded the military into several segments, turning generals into desperate royalists who continue to live off the monarchy in order to survive. Issues of violence in the Thai south and the Thai-Cambodian dispute became greatly intensified in the age of militarized politics. The coup also produced unique colour-coded politics and created crises of legitimacy. This book is a collection of essays that reflect developments in Thai politics in the post-coup period. Welcome to BC's frontier days, when loggers and laundresses penned poetry, and entertainment consisted of reciting verse 'round the fire. The Old Red Shirt is a rollicking collection of old-fashioned pioneer poetry. Selected by longtime amateur BC historian Yvonne Klan, the poems address the social issues of the day, teach moral lessons, and reflect the unique atmosphere of the province's early days. Klan's lively and informative prose introduces us to the larger-than-life characters behind the verses. Read about Dr. George Dawson, Dawson Creek's namesake, a hunchbacked man who explored the province and penned surprisingly delicate poetry about geography and rocks. Shed a tear for John Fraser, son of Simon, who lost his fortune to the Caribou Gold Rush and slit his own throat at the age of 32. Shout hurrah for the hurdy-gurdy lasses as they play havoc with the hearts of the gold-digging lads. The Old Red Shirt is by turns colourful, tragic and funny. The Old Red Shirt is Number 12 in the Transmontanus series edited by Terry Glavin.
