"For those unaware—as I was until I read this book—that Mark Twain was one of America's early animal advocates, Shelley Fisher Fishkin's collection of his writings on animals will come as a revelation. Many of these pieces are as fresh and lively as when they were first written, and it's wonderful to have them gathered in one place." —Peter Singer, author of Animal Liberation and The Life You Can Save “A truly exhilarating work. Mark Twain's animal-friendly views would not be out of place today, and indeed, in certain respects, Twain is still ahead of us: claiming, correctly, that there are certain degraded practices that only humans inflict on one another and upon other animals. Fishkin has done a splendid job: I cannot remember reading something so consistently excellent.”—Jeffrey Moussaieff Masson, author of When Elephants Weep and The Face on Your Plate "Shelley Fisher Fishkin has given us the lifelong arc of the great man's antic, hilarious, and subtly profound explorations of the animal world, and she's guided us through it with her own trademark wit and acumen. Dogged if she hasn't." —Ron Powers, author of Dangerous Water: A Biography of the Boy Who Became Mark Twain and Mark Twain: A Life This GentleManners book is divided into sections about specific items of clothing and specific accessories. It also delves into the different types of events to which a gentleman may find himself invited. Winner - 2018 President's Book Award by the Florida Authors and Publishers Association. Winner - 2019 Best First Book - International Latino Book Awards. SUN NIGHT follows the lives of two brothers growing up in Panama in 1976. Sebastian and Santiago live in a home with an alcoholic and philanderer father. Their mother, Michelle, an English teacher, takes on the role of both parents while trying to keep her marriage alive for her children's sake. The boys are very close and protective of each other. They keep strong through all the adversity of their lives by stories they tell each other when they go to sleep at night. One day, Sebastian creates a collage of the sun for a school project which prompts his brother to ask him, "Where does the sun go at night?" This is enough for Sebastian's imagination to take them as far away as possible from their reality. The tales are symbolic yet incredibly fantastical and visually imaginative. Sebastian utilizes the sun as the protagonist that connects the scenarios he describes to his brother every night. It takes them to far and unique locales in China, Spain, Italy, and islands of the Pacific. The sun character is powerful, it has the ability to push itself through from one side of the planet to the other and able to go through the mouth of a volcano to make the night a day again. The narratives are rich in wisdom and color, a contrast from their real life. The family is later exposed to a tragic incident that tests everyone's strengths. The book culminates with a reflection in the author's own words bringing closure to the challenges he was exposed to in his youth in addition to considering the meaning of all he learned from his brother. This series aims to improve the results of primary school pupils in a subject which is all too often a stumbling-block, rather than an inspiration. A Biblical Examination of Hell by Dr. Max D. An exploration of glamour, a potent cultural force that influences where people choose to live, which careers to pursue, where to invest, and how to vote, offers empowerment to be smarter about engaging with the world. When we conjure up the idea of the devil and the demonic hordes in our mind, we are often thinking in the context of how Christianity has portrayed them. The devil and his supposed horns, the Exorcist's battle with the demon possessed, the inverted cross, the Osculum infame (The Infamous kiss) or the Black Mass in which a young woman is sacrificed to Satan. All these are mostly influenced by Christian ideas in some way or another. The Prominence of Christianity in the study of demonology cannot be denied. There is, however, a lesser-known branch of demonology. One that has not been Christianized, yet Christians too have been informed by it. It is far older than Christianity, one that traces its roots back to the dawn of humanity. A demonology that is little known, yet invaluable for those of us in the Occult. It is the demonological ideas found within the Hebrew tradition. The Hebrew demonic tradition It is not as popular ONLY because no one has been able to bring all the pieces together, nor have they the ability to translate the source material from Aramaic and Hebrew to English. Most reiterate what has already been written, but with no foundational knowledge. In this book, I look to remedy that. This is not a boast, I am simply stating the facts. The Hebrew tradition has a rich and powerful Demonological tradition that is often not spoken of, even amongst kabbalists in fear that the demons and their minions will taint them or bring them bad luck. It is for this reason certain Jewish groups inundate their homes with magical talismans warding off the evil eye, the demoness Lilith and even the great demon Ashmodei (Asmodeus). In this book, I will take you through an academic and magickal journey through the Sitra Achra; the other side of the light as it is understood in the Hebrew tradition. You will not only learn, but you will experience.**Please note, this is not a book on the history of Hebrew or Jewish magick, although it will contain magick rites in it. This book is an elucidation on how the Hebrew tradition views demons and ghosts.** In this book you will learn: How the demonic idea developed, starting with the Old Testament and prior to.We will examine several demons and ghostly figures and their natures as told and experienced by the Great Rabbinic sages of the Talmud and the Kabbalah.You will learn the varying classes of demons and malignant spirits.We all know Lilith, but there are a few other female demonesses that we will encounter on this journey. Some you may have never heard of before.I will explain how the concept of the Sitra Achra unfolded at the moment of creation. You will learn how the Klippot came to be and their true nature. They are the husks of the Sitra Achra, the shards of the Sefirot. I will guide you through the various Hebrew and Aramaic texts that have been a stumbling block to most when approaching this topic.Finally, I will present five meditations and rituals you can use to romance the forces of the Sitra Achra.Let us begin. This volume presents a careful selection of fifteen articles presented at the SPCL meetings in Atlanta, Boston and Hawai'i in 2003 and 2004. The contributions reflect - from various perspectives and using different types of data - on the interplay between structure and variation in contact languages, both synchronically and diachronically. The contributors consider a wide range of languages, including Surinamese creoles, Chinook Jargon, Yiddish, AAVE, Haitian Creole, Afro-Hispanic and Afro-Portuguese varieties, Nigerian Pidgin, Sri Lankan Malay, Papiamentu, and Bahamian Creole English (Hackert). A need to question and test existing claims regarding pidginization/creolization is evident in all contributions, and the authors provide analyses for a variety of grammatical structures: VO-ordering and affixation, agglutination, negation, TMAs, plural marking, the copula, and serial verb constructions. The volume provides ample evidence for the observation that pidgin/creole studies is today a mature subfield of linguistics which is making important contributions to general linguistic theory. Anil Ananthaswamy's extensive in-depth interviews venture into the lives of individuals who offer perspectives that will change how you think about who you are. These individuals all lost some part of what we think of as our self, but they then offer remarkable, sometimes heart-wrenching insights into what remains. One man cut off his own leg. Another became one with the universe. We are learning about the self at a level of detail that Descartes ("I think therefore I am") could never have imagined. Recent research into Alzheimer's illuminates how memory creates your narrative self by using the same part of your brain for your past as for your future. But wait, those afflicted with Cotard's syndrome think they are already dead; in a way, they believe that "I think therefore I am not." Who—or what—can say that? Neuroscience has identified specific regions of the brain that, when they misfire, can cause the self to move back and forth between the body and a doppelgänger, or to leave the body entirely. So where in the brain, or mind, or body, is the self actually located? As Ananthaswamy elegantly reports, neuroscientists themselves now see that the elusive sense of self is both everywhere and nowhere in the human brain.
