This volume examines the many dimensions of dialogue as a key driver of peaceful personal and social change. While most people agree on the value of dialogue, few delve into its meaning or consider its full range. The essays collected here consider dialogue in the context of teaching and learning, personal and interpersonal growth, and in conflict resolution and other situations of great change. Through these three themes, contributors from a wide variety of perspectives consider the different forms dialogue takes, the goals of the various forms, and which forms have been most successful or most challenging. With its expansive approach, the book makes an original contribution to peace studies, civic studies, education studies, organizational studies, conflict resolution studies, and dignity studies. Blending cutting-edge science with compelling personal narrative, bestselling-author Susan Pinker examines the transformative power of human relationships and radically challenges our long-held assumptions about lifespan and happiness. Adeb Khalid offers the first extended examination of cultural debates in Central Asia during Russian rule. With the Russian conquest in the 1860s and 1870s the region came into contact with modernity. The Jadids, influential Muslim intellectuals, sought to safeguard the indigenous Islamic culture by adapting it to the modern state. Through education, literacy, use of the press and by maintaining close ties with Islamic intellectuals from the Ottoman empire to India, the Jadids established a place for their traditions not only within the changing culture of their own land but also within the larger modern Islamic world. Khalid uses previously untapped literary sources from Uzbek and Tajik as well as archival materials from Uzbekistan, Russia, Britain, and France to explore Russia's role as a colonial power and the politics of Islamic reform movements. He shows how Jadid efforts paralleled developments elsewhere in the world and at the same time provides a social history of the Jadid movement. By including a comparative study of Muslim societies, examining indigenous intellectual life under colonialism, and investigating

how knowledge was disseminated in the early modern period, *The Politics of Muslim Cultural Reform* does much to remedy the dearth of scholarship on this important period. Interest in Central Asia is growing as a result of the breakup of the former Soviet Union, and Khalid's book will make an important contribution to current debates over political and cultural autonomy in the region. Bu kitob Injil Xudoning haqiqiy Kalomi ekanligini e'lon qiladi. U yaratuvchidir va biz uning farzandlarimiz. U bolalarini abadiy yashashlari uchun Jannatni tayyorladi. Bizning uy hayvonlari haqida nima deyish mumkin - ular ham jannatga boradimi? *Azan on the Moon* is an in-depth anthropological study of people ' s lives along the Pamir Highway in eastern Tajikistan. Constructed in the 1930s in rugged high-altitude terrain, the road fundamentally altered the material and social fabric of this former Soviet outpost on the border with Afghanistan and China. The highway initially brought sentiments of disconnection and hardship, followed by Soviet modernization and development, and ultimately a sense of distinction from bordering countries and urban centers that continues to this day. Based on extensive fieldwork and through an analysis of construction, mobility, technology, media, development, Islam, and the state, Till Mostowlansky shows how ideas of modernity are both challenged and reinforced in contemporary Tajikistan. In the wake of China ' s rise in Central Asia, people along the Pamir Highway strive to

reconcile a modern future with a modern past. Weaving together the road, a population, and a region, Azan on the Moon presents a rich ethnography of global connections. Understanding World Media Understanding World Media sets out to mirror world media and the freedom it enjoyed across the globe in about 200 countries. While media is an important part of academic research, concerns have been raised globally on its content, intent and freedom of expression. To the extent that even as per the data compiled by Reporters Without Borders, democratic India ranks below par at 138 in the World Press Freedom Index 2018 out of the 180 listed nations. Though, it is a question of debate and discussions to what extent media in India is considered free or under censorship. When India is emerging as a global power with over 55 percent of its population is under 35 years of age, interest in the world community and media is growing leaps and bounds. It is in this context that this book magnifies its mirror to bring facts about the status and understanding of media in the world. For any book like this, it will always have its challenges to cover subjects like media in a nutshell, but for today, this book is timely and relevant. It is a balanced and thoughtful effort to present such a comprehensive book in a crisp and concise manner, as it is difficult to get experts on various countries to write on their respective domains. We have put our utmost effort to consolidate all necessary information and analysis required for this collection and we are very hopeful that it will serve its purpose, fulfill the void

and information gap about the world media. Understanding World Media is structured around two clear themes, the status of media in various countries and its freedom of expression. It is divided into five parts covering vast geographical areas in Asia, Europe, the Americas, Africa and Australia-Oceania. tizim xavfsizligi va xavfsizligi bo'yicha eng dolzarb va etakchi tadqiqotlarni taqdim etadi.
