Michael Swanson's online discussions with literally thousands of NexStar owners made it clear that there was a desperate need for a book such as this - one that provides a complete, detailed guide to buying, using and maintaining NexStar telescopes. Although this book is highly comprehensive, it is suitable for beginners - there is a chapter on "Astronomy Basics" - and experts alike. Celestron's NexStar telescopes were introduced in 1999, beginning with their first computer controlled "go to" model, a 5-inch. More models appeared in quick succession, and Celestron's new range made it one of the two dominant manufacturers of affordable "go to" telescopes. InfoWorld is targeted to Senior IT professionals. This comprehensive guide will facilitate scholarly research concerning the history of Christianity in China as well as the wider Sino-Western cultural encounter. It will assist scholars in their search for material on the anthropological, educational, medical, scientific, social, political, and religious dimensions of the missionary presence in China prior to 1950. The guide contains nearly five hundred entries identifying both Roman Catholic and Protestant missionary sending agencies and related religious congregations. Each entry includes the organization's name in English, followed by its Chinese name, country of origin, and denominational affiliation. Special attention has been paid to identifying the many small, lesser-known groups that arrived in China during the early decades of the twentieth century. In addition, a special category of the as yet little-studied indigenous communities of Chinese women has also been included. Multiple indexes enhance the guide's accessibility.
