The study of chiropractic history in Chiropractic Colleges all over the world has been neglected. Currently, most chiropractic students and practitioners only know a few anecdotal fragments from the life of the Palmers and many consider those ridiculous and feel ashamed of their origins. The objective of this book, unlike others, is to provide, besides a biographical account of the

life of B.J. Palmer, a vision of his achievements - mainly explained in his own words directly taken from his "Green Books." The book also includes the article "The Last Ten Years of D.D. Palmer, 'As I See It'." Shortlisted for the Wolfson History Prize 2018 A Book of the Year for the Evening Standard and the Observer A black porter publicly whips a white Englishman in the hall of a Gloucestershire manor house. A Moroccan woman is baptised in a London church. Henry VIII dispatches a Mauritanian diver to salvage lost treasures from the Mary Rose. From long-forgotten records emerge the remarkable stories of Africans who lived free in Tudor England... They were present at some of the defining moments of the age. They were christened, married and buried by the Church. They were paid wages like any other Tudors. The untold stories of the Black Tudors, dazzlingly brought to life by Kaufmann, will transform how we see this most intriguing period of history. 'If Max Woosnam had never been born,' says the author, 'someone would surely have invented him'. He was an all-rounder to rank, or even out-rank, Ianotheram, Denis Compton or Daley Thompson, but such was his modesty - and the sheer range of sports to which he turned his hand - that no-one has ever heard of him. As a schoolboy he scored 144 against MCC at Lord's. He played football before the First World War for the then-significant team Corinthian Casuals and toured Brazil with them. Then he fought alongside Siegfried Asson for four years on the Western Front. Back at Cambridge he earned no less than six Blues in everything from cricket to golf and squash. Then he played for Chelsea - as an amateur. Then he signed for Manchester City, and in 1922 was capped for England. He won an Olympic Gold medal in 1920 - in tennis, and won the Wimbledon doubles title the following year. He won a shooting gold medal at Bisley, he scored a 147 maximum at snooker, and he challenged and beat all-comers at table tennis armed only with a bread knife, including Charlie Chaplin. But all the meanwhile he held down a full-time job. Have you ever wondered what it is like to die and come back to life several times? In this book you will find the story of a young flight attendant, who experienced death, Hell and Heaven. A story spiced up with strange events brought from 35,000 feet altitude, from a different

dimension of the paranormal, while going round the world, from the Promised Land straight to the gate of Hell. The unknown lives of the flight attendants, seen from a different perspective. The award-winning combat historian and author of Washington's Immortals honors the Unknown Soldier with this "gripping story" of America's part in WWI (Washington Times). The Tomb of the Unknown Soldier is sacred ground at Arlington National Cemetery. Originally constructed in 1921 to hold one of the thousands of unidentified American soldiers lost in World War I, it now receives millions of visitors each year. "With exhaustive research and fluid prose," historian Patrick O'Donnell illuminates the saga behind the creation of the Tomb itself, and the stories of the soldiers who took part in its consecration (Wall Street Journal). When the first Unknown Soldier was laid to rest in Arlington, General John Pershing selected eight of America's most decorated veterans to serve as Body Bearers. These men appropriately spanned America's service branches and specialties. Their ranks include a cowboy who relived the charge of the light brigade, an American Indian who heroically breached mountains of German barbed wire, a salty New Englander who dueled a U-boat for hours in a fierce gunfight, a tough New Yorker who sacrificed his body to save his ship, and an indomitable gunner who, though blinded by gas, nonetheless overcame five machine-gun nests. In telling the stories of these brave men, O'Donnell shines a light on the service of all veterans, including the hero they brought home. Their stories present an intimate narrative of America's involvement in the Great War, transporting readers into the midst of dramatic battles that ultimately decided the conflict. printing. Mao: The Unknown Story by Jung Chang and Jon Halliday was published in 2005 to a great fanfare. The book portrays Mao as a monster - equal to or worse than Hitler and Stalin - and a fool who won power by native cunning and ruled by terror. It received a rapturous welcome from reviewers in the popular press and rocketed to the top of the worldwide bestseller list. Few works on China by writers in the West have achieved its impact. Reviews by serious China scholars, however, tended to take a different view. Most were sharply critical, questioning its authority and the authors' methods, arguing that Chang and Halliday's book is not a work of balanced scholarship, as it purports to be, but a highly selective and even polemical study that sets out to demonise Mao. This book brings together sixteen reviews of Mao: The Unknown Story - all by internationally well-regarded specialists in modern Chinese history, and published in relatively specialised scholarly journals. Taken together they demonstrate that Chang and Halliday's portrayal of Mao is in many places woefully inaccurate. While agreeing that Mao had many faults and was responsible for some disastrous policies, they conclude that a more balanced picture is needed. Published for the first time, the full account of Britain's most notorious Cold War villain. This book is based on real story of a boy about how much difficulties he faced for a girl. According to some accounts, Mary Queen of Scots bore a child to her last husband, the earl of Bothwell, while imprisoned at Loch Leven. In *Unknown to History*, C.M. Yonge weaves the story of this child, linking it with that of her mother. The Author tells us that in *Miss Strickland's Life of Mary Queen of Scots* (and in *Burton's History of Scotland*) a report may be found on which this tale is based. This is a fascinating and enthralling story of royalty, plot and intrigue, and was originally published in 1882. The vast unknown is a short story about a teenager who is forced to help another to flee the country, *The infernal packet* is a short story about a boy who agrees to deliver a packet but has a hellish time doing so, *Terror in the trees* is a short story about a child who goes to collect some material from someone she contacted over the internet and receives an unexpected shock, *The way to the void* is a short story about two children who go for a ramble in the country and circumstances land them in an unknown place. *Children of the narrow boat* is a short story about three children who have a holiday boating on a canal. *The hour of vengeance* is a short story about the effect that two mysterious strangers have on some local people who have reasons to be worried about their past. The story of three generations in twentieth-century China that blends the intimacy of memoir and the panoramic sweep of eyewitness history—a bestselling classic in thirty languages with more than ten million copies sold around the world, now with a new introduction from the author. An engrossing record of Mao's impact on China, an unusual window on the female experience in the modern world, and an inspiring tale of courage and love, Jung Chang describes the extraordinary lives and experiences of her family members: her grandmother, a warlord's concubine; her mother's struggles as a young idealistic Communist; and her parents' experience as members of the Communist elite and their ordeal during the Cultural Revolution.

Chang was a Red Guard briefly at the age of fourteen, then worked as a peasant, a "barefoot doctor," a steelworker, and an electrician. As the story of each generation unfolds, Chang captures in gripping, moving—and ultimately uplifting—detail the cycles of violent drama visited on her own family and millions of others caught in the whirlwind of history. A number of books have been written on the 1946 Royal Indian Navy Mutiny but the true story of this historic event remains untold with few facts deliberately suppressed. The Inquiry Commission report gave graphic details of mutinous acts at all the naval stations but it awarded no punishment to the guilty. It glossed over the bad conditions of service leading to the mutiny. It recommended no action against naval administration although bad service conditions were stated to be the root cause of mutiny in the Navy. It was an irony of British Naval Justice that the men voicing these bad service conditions were punished under the Naval Discipline Act. This book attempts to bring out a concise version of the composition and administration of the Navy including its sudden expansion during the World War II. The author's long association with naval counter intelligence has helped him to discern some unknown facts of this mutiny which are reflected in this book. It gives the build up and administrative background of Royal Indian Navy and details of mutinous acts in all stations because of which India did not have to fight any more for its freedom. The book, therefore, appropriately bears the title of 'Untold Story-1946 Naval Mutiny, the last war of Independence.' For years, a demon has attacked Heartland. "The words leaped at me from The Washington Post. 'I have decided,' President Franklin Delano Roosevelt announced, 'that approximately 1,000 refugees should be immediately brought from Italy to this country.' One thousand refugees....For years, refugees knocking on the doors of American consulates abroad had been told, 'You cannot enter America. The quotas are filled.' And, while the quotas remained untouchable ... millions died." With this mixture of desperation and hope, Ruth Gruber begins *Haven*, the inspiring story of one thousand Jewish and Christian refugees brought to sanctuary in America in 1944. As special assistant to Secretary of the Interior Harold L. Ickes, Gruber was selected to carry out this top-secret mission despite the objections of military brass who doubted the thirty-three-year-old woman's qualifications. When Gruber met the gaunt survivors, they told her about hiding in sewers and forests, of risking their lives to save others. As she wrote down their stories, tears often wiped out the words in her notebook. Gruber became the refugees' guardian angel during the dangerous crossing of the U-boat-haunted Atlantic, and during their eighteen-month internment at a former army camp in Oswego, New York. Lobbying Congress at the end of the war, she also helped the refugees become American citizens. This edition concludes with a new chapter featuring Gruber's look back on her many decades as a crusading journalist, and a special Appendix from the 1946 Congressional Record listing the names of all the camp's residents. The most authoritative life of Mao ever written, by the bestselling author of *Wild Swans*, Jung Chang and her husband, historian Jon Halliday. Based on a decade of research, and on interviews with many of Mao's

close circle in China who have never talked before, and with virtually everyone outside China who had significant dealings with him, this is the most authoritative life of Mao ever written. It is full of startling revelations, exploding the myth of the Long March, and showing a completely unknown Mao: he was not driven by idealism or ideology; his intimate and intricate relationship with Stalin went back to the 1920s, ultimately bringing him to power; he welcomed Japanese occupation of much of China; and he schemed, poisoned and blackmailed to get his way. After Mao conquered China in 1949, his secret goal was to dominate the world. In chasing this dream he caused the deaths of 38 million people in the greatest famine in history. In all, well over 70 million Chinese perished under Mao's rule, in peacetime. Combining meticulous history with the story-telling style of *Wild Swans*, this biography makes immediate Mao's roller-coaster life, as he intrigued and fought every step of the way to force through his unpopular decisions. Mao's character and the enormity of his behaviour towards his wives, mistresses and children are unveiled for the first time. This is an entirely fresh look at Mao in both content and approach. It will astonish historians and the general reader alike. 'This a bombshell of a book', Chris Patten, *The Times* 'The first great political biography of the twenty-first century' *Spectator* *Mao: The Unknown Story* by Jung Chang and Jon Halliday was published in 2005 to a great fanfare. Historians and political analysts have not paid enough attention to the crucial link between India's partition and British fears about the USSR gaining control of Central Asia. Realizing that Indian nationalists would not play the Great Game against the Soviet Union, the British settled for those willing to do so, using Islam as a political tool in pursuit of their objectives. How this operation was conceived and carried out forms the theme of this untold story of India's partition. Narendra Singh Sarila unearths top-secret documents which throw new light on several prominent political figures of the era, while bringing out little-known facts about the pressure that the US exerted on Britain to grant India her independence. The author also traces the roots of the present Kashmir imbroglio in this fascinating account. I wrote this part of the book on 16.11.2022. This book is my imagination and I don't want to lose it after some time so I transform it into a book. It is about a rich girl who lost her memory after an accident and her friend helped her and took care of her and after some time they get close and fell in love and between in this journey the child meets his mother and learned about his father and lost his grandmother. I have been working on Circassian Mythology of Narts for a long time. As a result of these studies, which started about fifteen years ago, some questions arose in my mind about the Circassian Mythology of Narts. One of them is how many themes in the Circassian Mythology of Narts are universal and have not been noticed until today. However, it is very clear that many themes in the Circassian Mythology of Narts are universal. At least most of them are certainly not regional. Undoubtedly, the themes related to Nart Wezirmes are at the forefront of such universal ones. I am amazed that it has not been noticed until today that the narratives of the character Rama in the Indian epic Ramayana and the hero named Nart Wezirmes in the Circassian Mythology of Narts are actually texts

based on the same story. In the same way, the thematic similarities between Nart Wezirmes and Egyptian Osiris have not been noticed until now, which intrigues me. I dealt with this subject in my book, titled *The Ancient Secret of Circassian and Egyptian Mythologies, From Narts to Neters*. A rediscovered classic, originally published in 1938 -- and now an international bestseller. Address Unknown When it first appeared in *Story magazine* in 1938, Address Unknown became an immediate social phenomenon and literary sensation. Published in book form a year later and banned in Nazi Germany, it garnered high praise in the United States and much of Europe. A series of fictional letters between a Jewish art dealer living in San Francisco and his former business partner, who has returned to Germany, Address Unknown is a haunting tale of enormous and enduring impact. This book is an entertaining consolidation of diverse stories which cover a broad range of topics and themes. While 'The Gift of the Magi' resonates with the sense of love and loss, 'The Selfish Giant' and 'Rip Van Winkle' relives our childhood. Some stories warm your heart, some make you think and some delight you with their magical language while at the same time they explore universal themes and arouse a gamut of responses. A must-have, this book offers a plethora of classics to read and enjoy for any lover of a good story. Reproduction of the original. 'Captivating, intimate, dazzling epic and revelatory' SIMON SEBAG-MONTEFIORE The story of the family who rose from the Frankfurt ghetto to become synonymous with wealth and

power has been much mythologized. Yet half the Rothschilds, the women, remain virtually unknown. From the East End of London to the Eastern seaboard of the United States, from Spitalfields to Scottish castles, from Bletchley Park to Buchenwald, and from the Vatican to Palestine, Natalie Livingstone follows the extraordinary lives of the English branch of the Rothschild women from the dawn of the nineteenth century to the early years of the twenty first. As Jews in a Christian society and women in a deeply patriarchal family, they were outsiders. Determined to challenge and subvert expectations, they supported each other, building on the legacies of their mothers and aunts. They became influential hostesses and talented diplomats, choreographing electoral campaigns, advising prime ministers, advocating for social reform and trading on the stock exchange. Misfits and conformists, conservatives and idealists, performers and introverts, they mixed with Rossini and Mendelssohn, Disraeli, Gladstone and Chaim Weizmann, amphetamine-dealers, temperance campaigners, Queen Victoria, and Albert Einstein. They broke code, played a pioneering role in the environmental movement, scandalised the world of women's tennis by introducing the overarm serve and drag-raced with Miles Davies in Manhattan. Absorbing and compulsive THE WOMEN OF ROTHSCHILD gives voice to the complicated, privileged and gifted women whose vision and tenacity shaped history.
