The Third Edition of this widely used text provides manual therapists with much-needed guidance on taking client histories, setting functional goals, communicating with health care and legal professionals, documenting outcomes, and billing insurance companies. This edition includes crucial information on HIPAA regulations, new and updated bill forms, and lists of codes for self-referred patients and for insurance verification forms. Reader-friendly features include sidebars, case studies, chapter summaries, and useful appendices. A front-of-book CD-ROM includes the blank forms for use in practice, a quick-reference abbreviation list, and a quiz tool to review key concepts. Faculty ancillaries are available upon adoption. Provides critical UB-04 training and serves as a reference for coders, billers, auditors, and accounting staff who have the responsibility for preparing and reviewing accurate documents for claims submission. The Handbook can reduce revenue loss and speed up claims processing to payers by increasing the level of knowledge between coders, billers and everyone else involved in the revenue cycle. It teaches individuals how to complete a facility UB-04 billing form, and contains vignettes that explain the billing office process, its components and reporting nuances. Readers who follow the identified steps can significantly reduce the data rework on print and electronic form submissions and increase the speed and acceptance of claims. Hospitals and other care providers can maximize claim processing performance and revenue recovery and improve their revenue cycle. Enjoy 100% of the features of your PrestaShop store! The Essential Guide to Coding in Otolaryngology: Coding, Billing, and Practice Management, Second Edition is a comprehensive manual on how to properly and compliantly code for both surgical and non-surgical services. It is a practical guide for all otolaryngology providers in the United States, including physicians early in their career requiring a working knowledge of the basics, experienced providers looking to understand the latest updates with ICD-10-CM and CPT changes, related specialists (audiology, speech pathology, and physician extenders) providing otolaryngologic health care, and office administrative teams managing coding and billing. Included are sections on how to approach otolaryngology coding for all subspecialties in both the office and operating room. Foundational topics, such as understanding the CPT and ICD-10-CM systems, use of modifiers, managing claim submissions and appeals, legal implications for the provider, coding for physician extenders, and strategies to optimize billing, are presented by experts in the field.
